

THE ADVENTURES OF Lightning Lulu!

When Lulu's mom explained what GiftsToGive does, Lulu knew what she had to do.

She whipped out her cape and morphed into her superhero form, Lightning Lulu!

In a flash she lifted off the ground, flew into her room, and began sorting through her clothes with super speed.

She even looked through her brother's stuff too! Piles began stacking up to the ceiling! With her brother's help she collected enough clothes for 25 boys and girls!

The bags were heavy but Lightning Lulu used her super strength to lift them into the air.

She flew the bags to Gifts To Give, where she saw that Learning Leon and Limitless Luis were dropping their stuff off too!

Lightning Lulu is part of an alliance of superhero children residing all over the world. You can be part of it too by getting involved with giftstogive today!
